## EDUCATION

*The Chinese University of Hong Kong, Shenzhen*      *B.S. in Statistical Science*      *2016. 09- 2020.06 (Expected)*

- Cumulative GPA: 3.622/4.0 (top 11.9%)      Major GPA: 3.709/4.0
- Relevant Courses: Survey Sampling (A-), Multivariate Techniques (A), Categorical Data Analysis (A-), Regression Analysis (A), Societies, Development, and Inequalities (A), Living Sociology (A-)
- Academic Honors: Dean's list in 2016-2017, 2018-2019, Master' List in 2018-2019  
Academic Performance Scholarship in 2018-2019 (top 5% in GPA, 20,000RMB/2,560EUR)

*Technical University of Dortmund, Germany*      *Summer Exchange Program*      *2018. 06- 2018. 08*

- Course: Introduction to MATLAB, German Language, Germany – Politics, Culture, and Society.

---

## RESEARCH, CONTEST & TEACHING EXPERIENCE

**Undergraduate Research Assistant**      2018. 11-2019. 02

School of Humanity and Social Science, The Chinese University of Hong Kong, Shenzhen.

*Project: The Social Structure of the Sports Economy: An Inquiry on Chinese Golf Trainer's Labor Market.*

- Applied the ordered logit model to study the earning determinants of golf trainers and verified its assumptions and relevancy.
- Employed latent class analysis to confirm the results of a multivariate correspondence analysis, which excavated the 'ideal type' of golf trainers.

**Student Researcher**      2019. 03- Present

*Project: Why Engage in Niggling Coaching Work? Ethnographic Observation of Chinese Female Golf Trainers.*

Grant: Undergraduate Research Award with allowance 9,000 RMB/1,150 EUR.

- Conducted intensive literature review on *Gender, Masculinity, and the Labor Market*, and readings on multiple qualitative research methods under the supervision of Dr. Aurélien Boucher.
- Performed ethnographic observation over three months and came out with more than 100,000 words of field notes and interview transcripts, as well as hundreds of visual records in the form of drawings, photos, and videos.

**2019 Mathematical Contest in Modeling**      2019. 02

*Project: LG-PR Model: Characterization and Prediction of Opioids Use in the U.S.*

Designate: Honorable Mention, top 24% in 14,108 teams.

- Built a fresh logistic growth hybrid Poisson regression model to identify the growing pattern of opioids use in the U.S.
- Adopted grey relation analysis to identify influential socio-economic factors and used them to modify the original model.

**Undergraduate Student Teaching Fellow**      2019. 09-2019. 12

*Course: STA3007 Nonparametric Statistics* (opened to Year3&4 Stat-major students, teaching language: English)

- Prepared contents in tutorial and assignments, taught tutorials, and held office hours for consultancy. (60 hours)

---

## PEER-REVIEWED PAPERS & CONFERENCES

- Aurélien Boucher and **Yuqing Li**, "The Social Structure of the Sports Economy: An Inquiry on Chinese Golf Trainer's Labor Market." *International Review for the Sociology of Sport*, 2019. (Under Review)
- "Sociological Analysis of Sustainable Diets." Paper presented in the Annual Academic Conference of Chinese Sociological Association, Yunnan, China, July 13, 2019. (Second author)

---

## ACTIVITIES & AWARDS

- English Voluntary Teaching in Indonesia      Volunteer      2017. 05
- CUHK, Shenzhen Badminton Team      Co-founder & Vice Captain      2018. 05 – 2019. 05
- Second Open Badminton Tournament in Witten, Germany      Champion (Women, Single)      2018. 08
- 2019 Chinese National Collegiate Badminton Competition      Sixth Place (Women, Team)      2019. 05
- Shaw Achievement Awards in 2017-2018, 2018-2019 (1%, to recognize achievements in extra-curricular pursuits (sports))

---

## SKILLS & STANDARD TESTS

- Software: R (proficient), LaTeX (proficient), STATA (good), MATLAB (good), Python(good)
  - Language: English (fluent), Mandarin (native)
  - Standard Test: GRE: Overall 328 (Verbal 159, Quant 169, AW 4.0); IELTS: Overall 7.0 (L 7.0, R 8.0, W 7.0, S 6.5)
-
